Research • Public Systems • Data • AI • Digital Strategy

Gwalior, Madhya Pradesh • +91 6265516569 • work@sanskaryadav.in • www.sanskaryadav.in

01 // PROFESSIONAL POSITIONING

Political communication and digital strategy practitioner with a foundation in Economics and hands-on practice in structuring complex civic, research, and public communication challenges. Works at the intersection of ground-level field intelligence and executive decision support, designing data-driven systems, citizen grievance platforms, and AI-assisted workflows. Translates real-world public problems into structured information, clear communication frameworks, and practical technology deployments that create genuine public value.

02 // SELECTED PRACTICE & KEY PROJECTS

★ FLAGSHIP SYSTEM DECISION SUPPORT Guna Civic Intelligence Hub Real-time political intelligence and decision support system connecting grassroots grievance intake with high-level campaign strategy across 4 regional assembly constituencies.	★ FLAGSHIP SYSTEM MULTIMODAL AI • DATA Electoral Integrity AI Tool Multimodal AI workflow processing non-OCR Hindi/English electoral-roll PDFs to detect candidate matches, duplicate voter records, and potential demographic anomalies.
Gwalior Jan Samasya Portal CIVIC TECH • GRIEVANCE Deployed citizen grievance platform for municipal ward-level public issues (roads, water, sanitation, electricity) to enable structured, data-backed local governance.	Raghogarh Jan Sewa Portal CONSTITUENCY PLATFORM Constituency-scale digital engagement system connecting residents, youth volunteers (Jan Mitras), and leadership across 300+ rural villages and 24 mandals.
Kartavya Reporting System AI EXTRACTION • AUTOMATION Automated intelligence pipeline harvesting social media posts, filtering non-activity content via Gemini AI, and synthesizing structured organizational activity audit reports.	Sangathan-Samvad Abhiyan 66-WARD FIELD INTEL Comprehensive 66-ward strategic research and field dialogue framework converting grassroots worker feedback and civic issues into structured strategic intelligence.
